TAYLOR **SAM**

WEB DEVELOPER

Taylorsam209@gmail.com · (209) 518-9800
· in/taylor-sam · github.com/taylorsam209 · taylorsam.com

SKILLS

- JavaScript ES6
- HTML5
- CSS3
- React JS
- Node JS
- Express
- PostgreSQL
- Redux
- RESTful API
- AngularJS
- SASS
- Unit Testing
- Git Version Control
- Test Driven Development
- Angular JS

PROJECTS

CLOSII MUSIC, FREELANCE WEB DEVELOPER   DEC 2017 – JAN 2018

Website: closiimusic.com
Tech: ReactJS, NodeJS, Express, Grid, SASS, Stripe Checkout
• Musician artist portfolio made for Sacramento, CA based rapper Carlos Perez aka Closii.
• Frontend built with ReactJS focusing on mobile responsive design implementing CSS Grid.
• Stripe Checkout boilerplate running on server side with NodeJS to enable donation payment feature.

TRIPPIN, DEVMOUNTAIN - STUDENT WEB DEVELOPER   NOV 2017 – DEC 2017

Website: trippinonline.com
Tech: ReactJS, NodeJS, Express, PostgreSQL, Material-UI, SASS, Yelp API, Google Maps API, Grid, Flexbox, Jest
• Group project mobile view application that allows for easy trip planning with friends and families.
• Implemented card components from Material-UI library to build frontend pages.
• Created Redux action builders for state management allowing multiple react components access to data throughout application.
• Backend Unit Testing written in Postman Collections to test REST requests to Yelp API and PostgreSQL database.

VEGAN EATS, DEVMOUNTAIN - STUDENT WEB DEVELOPER   OCT 2017

Website: veganeats.life
Tech: React JS, Node JS, Express, PostgreSQL, Redux, SASS, Yelp API, Google Maps API, Flexbox, Auth0
• A single page application that allows users to search for vegan and vegetarian friendly resources by location.
• Built server side code to communicate with Yelp API using RESTful requests to pull JSON data about businesses.
• Users can login with Auth0, an authentication library written with NodeJS and express.
