SKILLS

ES6 Javascript | React JS | Node JS | Express | PostgresSQL | HTML5 | CSS3 | Redux | Massive JS RESTful API | SASS | Git Version Control | Auth0 | Angular JS | Test Driven Development

PROJECTS

VEGAN EATS

Stack: React JS, Node JS, Express, PostgresSQL
Technologies: Redux, SASS, Yelp Fusion API, Google Maps Library, Flexbox, Auth0
Website: http://veganeats.life/

- A fullstack project that allows users to search for vegan and vegetarian friendly resources by location.
- Yelp Fusion API and Google Maps is utilized to gather and display business data.
- Users can login with Auth0 and save their favorite businesses which can be viewed in their profile.

TRIPPIN

Stack: React JS, Node JS, Express, PostgresSQL
Technologies: Material-UI, Lodash, SASS, Yelp Fusion API, Google Maps Library, Grid, Flexbox
Website: http://trippinonline.com/

- Group project mobile view application that allows for easy trip planning with friends and families.
- Frontend design was built with material-ui to achieve consistent styling throughout the app.
- Mainly focused on backend development, redux, and restaurant features utilizing Yelp Fusion API.
